**(Free scholarships available for Penobscot Watershed Towns. See registration form for eligible towns ).**

This workshop will be helpful for preparing **Water Bond grant** applications. The workshop will cover road-stream crossing projects from site assessment to permitting and installation. The emphasis will be on maintaining and restoring the habitat and economic values of the stream. Workshop presenters will include professionals from the Maine Department of Inland Fisheries and Wildlife, ProjectShare, The Nature Conservancy, U.S. Fish and Wildlife Service, Maine Department of Environmental Protection, USDA Natural Resources Conservation Service, NOAA, the U.S. Army Corp of Engineers and Wells Reserve. Participants in this workshop will receive recertification credit for the Maine Department of Environmental Protection's Voluntary Contractor Certification Program. This workshop should be helpful to all professionals who are responsible for road-stream crossings including, contractors, road commissioners, public works departments, conservation commissions, engineers, planners, land trusts, watershed groups and private landowners.

Online Registration at [maineaudubon.org/stream-smart](http://maineaudubon.org/stream-smart) Workshops are offered in four different locations in Maine—content is the same for all workshops.
